CoCreate Annotation User Course

Become productive and successful at producing detailed 2D drawings from **CoCreate Modeling** parts and assemblies. Learn to easily create, arrange, dimension and modify 2D views to make complete mechanical drawings that are derived from 3D solid models and assemblies previously created in **CoCreate Modeling**. Also, tailor **Annotation** to meet your particular company's drawing standards.

Content

Creating drawings with **Annotation**

- Annotation Overview
- Creating a Drawing
- Creating Views
- Annotation Tools
- Dimensioning
- Drawing Geometry
- Auxiliary Geometry
- Hatching
- Adding Text
- Working with Sketches
- Adding Symbols
- Bills of Materials
- Plotting
- File Handling
- Customizing Annotation

General Information

| | |
|------------------|-----------|
| Course Number: | T220 |
| Participants: | Max 12 |
| Documentation: | Inclusive |
| Course Duration: | 2 days |

Participants & Prerequisites:

This class is ideal for **CoCreate Modeling** users that need to create professional 2D mechanical drawings from 3D models.

To get the most from this course you need to have previously completed the **CoCreate Modeling** course and must have experience in the development of detailed 2D mechanical drawings, using **ME10**, **CoCreate Drafting** or another 2D CAD system.
