

Professional On-Site Training Services

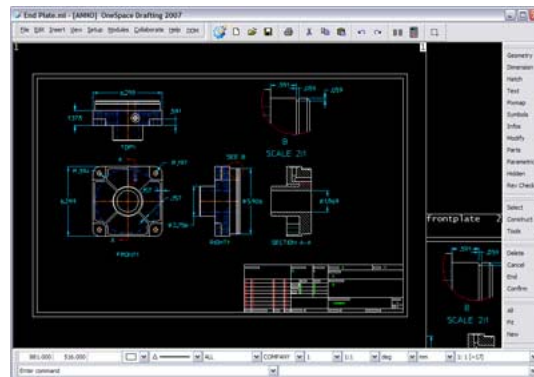

CoCreate Drafting Advanced

With this course, the user will get comprehensive exposure to the extended functionality of **CoCreate Drafting**. After this course, users will be able to apply Drafting's extended capabilities to further integrate innovation and reduce time-to-market. You will also get an introduction to basic macro programming inside of **Drafting**, and exposure about how to tailor **Drafting** with the Microsoft Windows interface. After this course, you will be able to create special new commands from macros and implement them in the MS Windows **CoCreate Drafting** user interface. The course consists of lectures and laboratory exercises.
