

## Professional Web-Based Training Services

### CoCreate Modeling - QuickStart

#### All New Materials for v14.0 to v15.5

This is a virtual web-based course designed for new users. By the end of this class you will know how to create and modify 3D models using standard functionality. You will also know how to create drawings from the 3D model and keep them up to date as the model changes. Students will work through several labs that take them through all necessary functionality.

#### Course Content

##### Session 1 (3 hours)

- 3D Modeling Technologies
- Virtual 3D Space
- Creating 3D Models
- User Interface

##### Session 2 (3 hours)

- File Management
- Drawing Creation
- 3D Modify
- Drawing Associativity

##### Session 3 (3 hours)

- Parts & Assemblies
- Advanced Modeling Capabilities
- Help System & Other Resources
- Tips & Tricks

#### General Information

Course Number:	V201
Participants:	Max 10
Documentation:	Inclusive
Course Duration:	9 hrs in 3 sessions

#### **Participants & Prerequisites:**

This class is designed for new users. Familiarity with 2D CAD and/or 3D CAD will help but is not necessary.

#### **Next Steps:**

Once you have completed the **Modeling QuickStart** class, we recommend you take the **Modify 3D** class, **Parts & Assemblies** class and the **Annotation** class. With these additional classes you will have an excellent knowledge of all the base functionality for **CoCreate Modeling** and will be able to tackle most any design and documentation task.
