CoCreate Modeling - Modify 3D

All New Materials for v14.0 to v15.5

Continue your education of **CoCreate Modeling** with this web-based **Modify 3D** class. This class is designed to give students in-depth knowledge about modifying 3D models in **CoCreate Modeling**. Students will learn more about advanced creation and modifying techniques. Much time will be spent on the Modify 3D functions, reviewing all capabilities and limitations.

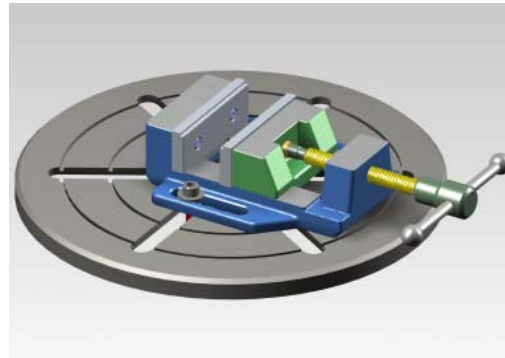

Course Content

Session 1 (3 hours)

- 3D Modeling Technology
- Part Check
- Machining
- Select & Catch
- Move , Taper

Session 2 (3 hours)

- Chamfer
- Cut, Copy, Paste
- Lift, Offset, Align
- Merge, Split
- Blend

General Information

Course Number:	V203
Participants:	Max 10
Documentation:	Inclusive
Course Duration:	6 hrs in 2 sessions

Participants & Prerequisites:

This class is designed for **Modeling** users that have a few months experience with the tool or have attended the **Modeling QuickStart** class.

Next Steps:

If you have not attended the **Parts & Assemblies** class or the **Annotation** class, consider one of these as a next step. With the completion of the **Parts & Assemblies** class, the **Modify 3D** class and the **Annotation** class, you will be well prepared to tackle most any design task. If you have attended these classes, there are many advanced classes available depending on your particular responsibilities and needs.
