CoCreate Modeling - Parts & Assemblies

All New Materials for v14.0 to v15.5

Continue your education of **CoCreate Modeling** with this web-based **Parts and Assemblies** class. This class is designed to give students much more knowledge in working with parts and assemblies in **Modeling**. Students will learn more about the Structure Browser capabilities, parts and assemblies file management, advanced positioning techniques, interference checking, shared parts, configurations, animations, and an introduction into the Advanced Assembly module.

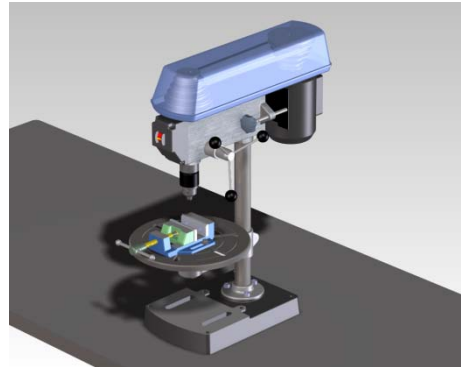

Course Content

Session 1 (3 hours)

- Structure Browser
- Share / Copy
- Part & Assembly Properties
- Instance / Contents
- File Management

Session 2 (3 hours)

- Part Positioning
- Part Check and Compare
- Interference
- Configurations
- Advanced Assembly Introduction
- Tips & Tricks

General Information

Course Number:	V202
Participants:	Max 10
Documentation:	Inclusive
Course Duration:	6 hrs in 2 sessions

Participants & Prerequisites:

This class is designed for **CoCreate Modeling** users that have a few months experience with the tool or have attended the **CoCreate Modeling QuickStart** class.

Next Steps:

If you have not attended the **Modify 3D** class or the **Annotation** class, consider one of these as a next step. With the completion of the **Parts & Assemblies** class, the **Modify 3D** class and the **Annotation** class, you will be well prepared to tackle most any design task. If you have attended these classes, there are many advanced classes available depending on your particular responsibilities and needs.
